At UTS, we think differently: we take a global approach to education that has innovation at its core.

What's more, we're a university for the real world: all our courses are closely aligned with industry need, so what you learn will prepare you for your future career. And we're located in one of the world's great cities, on a dynamic and interconnected campus that will inspire you to learn.

Our future-focused research focuses on five theme areas: health, data science, sustainability, future work and industry, and social futures. We research the big questions to find real solutions to the challenges of today – and tomorrow.

With more than 130 undergraduate and 180 postgraduate courses on offer across a range of emerging and traditional disciplines, we've got something for you.

To find a course that's right for you, visit:

Taha Anwar, BA of Engineering
Undergraduate Academic Excellence Scholarship

"UTS is unique in the fact that it offers me the opportunity to take a double major in both mechanical and mechatronics engineering. The degree is very high standard and that's why I think UTS is the best fit for me."
